Agreement

In order to graduate, certificate students must fulfill all certificate requirements. These requirements include a specified number of courses, plus Effective Resume Writing and Portfolio Development. Occasionally, requirements may be altered as industry standards change. Courses that you have already taken will still count toward your certificate, even if they are replaced with newer ones. However, you may still be required to comply with any changes.

The Portfolio Development class must be taken during your final semester; after all other certificate courses have been completed. An Application for Certificate of Completion must be submitted and approved by your program director in order to enroll in this class.

If you do not fulfill the requirements for your program of study, you will not be eligible to receive a Certificate of Completion from the Multimedia Studies Program.

By signing this application, you agree to abide by the terms and conditions of the certificate requirements as outlined above.
